

Getting Started with FPS

Do you know something about FPS already?

- If so, keep reading.
- If not, go to www.fpspi.org or www.georgiafsp.org and read all about it, including information on the five FPSP components – Global Issues Problem Solving, Community Problem Solving, Scenario Writing, Scenario Performance, and Action-based/Novice Problem Solving.

Do you know which component(s) of FPS you are most interested in?

- On the Georgia FPSP website, there are descriptions about each of the components offered by GA FPSP.

Can't decide which component you want to use with your students/children? Know you want to use FPS with them but don't know where to start?

- GA FPSP offers virtual new coach training in any component, with flexible scheduling. New coaches can learn the 6-step creative problem solving process, how to implement the process with Global Issues Problem Solving and Community Problem Solving, and/or how to facilitate Scenario Writing and Scenario Performance with students.
- After attending training, you should be able to go back to your students/children and begin using the FPS process to challenge and enrich their learning experience.
- Georgia FPSP is happy to offer tips about how to implement FPS in your particular situation.
- See www.georgiafsp.org to register for training.

If this still doesn't answer your questions, please don't hesitate to contact us.
